

Recommendation T/L 03-08 (Edinburgh 1988)**VOCABULARY OF DIGITAL TRANSMISSION AND MULTIPLEXING
AND PULSE CODE MODULATION (PCM) TERMS**

Recommendation proposed by Working Group T/WG 12 "Transmission and Multiplexing" (TM)

Text of the Recommendation adopted by the "Telecommunications" Commission:

"The European Conference of Posts and Telecommunications Administrations,

considering

— that digital transmission is becoming more and more important within Europe,

— that there is a need to avoid any misunderstanding with respect to vocabulary,

recommends

that member Administrations adhere to the specifications contained in this Recommendation."

Recommendation T/L 03-08 corresponds to the following CCITT Recommendation: "Vocabulary of digital transmission and multiplexing and pulse code modulation (PCM) terms".
